# NOTHING ABOUT ME WITHOUT ME

Documenting Disability through Art, Photography & Film

Weber Gallery/The Council on Developmental Disabilities is pleased to announce a new series of visual art workshops with an emphasis on photography and film. We are seeking to engage with local agencies serving the DD/ID community by bringing teaching artists into your facility to work with your clients to learn new skills and develop new modes of expression.

## THE PROJECT PHILOSOPHY

We believe that individuals with DD/ID, physical disabilities and other differences have unique personal stories to tell and we intend to place the tools of storytelling directly in their hands. While the life experiences of individuals in these communities have often been documented, cataloged and narrated by others from outside the community, it is our intention to empower our participants to tell their own stories, in their own words.

Through film, photography and other artistic media, we will support our participants' exploration of their personal histories through their own unique lenses. Participation in this project will provide our constituents with the skills and tools to be the authors, the narrators, the documentarians of their own experiences and worldviews.

## OUR WORKSHOPS

- Offer unique, hands-on art experiences
- Include public exhibition opportunities
- Are led by local professional artists with a passion for community engagement
- Are free of charge for agencies serving the DD/ID community
- Can be held either on-site at your agency or at Weber Gallery
- Run from 1 to 3 hours and can be single- or multi-session

Hope.

Vision.

Voice.
